

COVID-19 Update

Hello Everyone!

- Starting Monday, August 31, 2020 we are pleased to welcome students back to school for in-person daytime classes. Evening classes will continue through Supported Home Study at this time. Instructors have been calling students with details. **It is very important that you speak to your instructor before returning to school.** If you have not spoken to your instructor, please call the school. (St. John's: 726-3500; Clarendville: 466-6080; Hr. Grace: 596-0870).
- Everyone is **required** to wear a mask for entry to the building and at all times when moving throughout the building. Student desks have been arranged for social distancing and students have the option of wearing their mask when seated at their desk.
- Students are **required** to read and sign a Covid 19 Self Screening Questionnaire each day and sanitize their hands upon entering the building.
- While in-person classes will resume, Supported Home Study will also continue.
- Staff will meet with students upon their return to discuss the recommended health protocols that we will follow to ensure student and staff safety.

We thank you for your patience as we adjust to new routines. Remember, we are here for you and we will support you in whatever way we can!

Steve Snow
